

Dear Friend,

In 2021 so far, our shelter has brought in over 150 cats and 160 dogs who needed care. Times have changed and so has the way we run our shelter. In a time of uncertainty, we have adapted many of our procedures to ensure our success. Our shelter continues to work with minimal staff and relies heavily on our incredible team of volunteers and fosters to accomplish daily tasks necessary to keep our shelter running effectively. Foster homes, both new and veteran, continue to come to our calling and provide priceless loving care. One thing remains certain and that's the commitment we give each animal that enters our shelter. Caring for over 300 animals requires an endless need for vet care and supplies. We rely heavily on donations from our supporters, like you, to continue to help the disadvantaged animals in our community.

Your gift allows the Watertown Humane Society to provide the essentials needed for their care.

Without your help, the Watertown Humane Society couldn't have helped the hundreds of animals that need us.

Our shelter strives to provide the best care for animals in need. Our foster program has saved an exceptional amount of animals and we are so proud of our accomplishments as a community in times of crisis. We also pride ourselves in providing services to our community and matching pets with their forever families. We look forward to serving the Watertown and surrounding communities and helping even more animals in need in the New Year.

Thank you for your generous support of the Watertown Humane Society!

With gratitude,

Heather VanDam

Because of you... these success stories are possible

"My fiancé Mathew and I have had Clifton for just over a month now and wanted to give you an update! We adopted Clifton on August 3rd of this year. He was originally from Texas and arrived at the Watertown Humane Society in February. When he came up here he had a leg injury and underwent hip surgery. Since he had been at the shelter for over 6 months, when we first adopted him he was anxious and unsure of his new home. Over the first week or two he became comfortable, and he's grown so much since then! Instead of being afraid of strangers on walks he now asks for attention from them. His favorite activity is destroying every toy we buy him and proudly showing us his work. He's a very wiggly dog and loves to lick when he gets excited. Clifton is a great addition to our family and we couldn't be happier to have him!"

Petunia (FKA Ice Princess) and her new cat friend

I usually take all my new pets to the vet first thing after adoption. When I adopted Petunia (Ice Princess) last year, Doc and I agreed that we'd wait until she was due for vaccines to do a good exam because we knew it would be traumatic for her. On Monday, she went and saw the doctor (heavily sedated). She got her mats brushed out, nails trimmed, and even got her blood drawn. Her bloodwork was all normal and Doc estimated her around 8-10 years old. I still don't touch her but I love her so much. I can tell she's truly happy here, especially now that she has a cat friend. I wish more people would take a chance on cats like her." -Marissa W.
