

PRESS RELEASE

WATERTOWN HUMANE SOCIETY AWARDED ASPCA GRANT TO ENHANCE VETERINARY CARE SERVICES

**FOR IMMEDIATE RELEASE
December 25, 2024**

WATERTOWN, WI – The Watertown Humane Society is pleased to announce that it has been awarded a generous grant from the ASPCA® (The American Society for the Prevention of Cruelty to Animals®). This funding will support the purchase of new canine recovery kennels for the organization’s newly renovated shelter clinic.

The addition of these kennels marks an important step forward in expanding the Humane Society’s ability to provide high-quality, compassionate medical care to the community’s most vulnerable pets. Designed to offer a calm, safe, and sanitary environment for animals recovering from surgery or medical procedures, the new kennels will help the shelter treat more dogs efficiently and comfortably.

“These efforts make pet care more accessible and affordable,” said Executive Director Heather Van Dam. “We are incredibly grateful to the ASPCA for recognizing the importance of investing in local animal welfare and supporting our mission to serve pets and the people who love them.”

The Watertown Humane Society’s clinic renovation and expanded recovery space aim to increase its capacity to offer essential veterinary services, reduce barriers for pet owners, and improve outcomes for animals in need. The ASPCA grant strengthens these efforts and helps ensure a higher standard of care for animals throughout the community.

For more information about the Watertown Humane Society, its services, or ways to support its mission, please visit the organization’s website or contact the shelter directly.
